

Please tell us what made you decide to protect your family with DeTech today!

Please print and sign your name at the end.

We are also asking your permission to have families that are considering using DeTech to protect their families to contact you by phone to inquire your opinion.

Thank you again for helping us spread the word, that we do have safer choices when it comes to fire protection.

After hearing the presentations I felt compelled to have Detect installed. Although the cost was more than I anticipated, I could not put a value on the lives of my family and would never be able to forgive myself if something were to happen as a result of me ignoring the obvious risks. I now feel I have done everything possible as a father and husband to protect my family.
